

Washington State WorkSource Information Notice (WIN)

WIN Number: 0147

WIN Title: Update on the WorkSource Integrated Technology Replacement Project

Date: May 27, 2025

Expiration: N/A

Purpose:

To provide an update on the WorkSource Integrated Technology (WIT) replacement project.

Action Required:

Local Workforce Development Boards and their contractors, as well as ESD Regional Directors, must distribute this guidance broadly throughout the system to ensure that WorkSource System staff are familiar with its content and requirements.

Content:

The WIT Replacement Project goal is to deliver high-quality tools that enhance your work and make serving customers easier. It is with this goal in mind that the WIT project team has decided to shift go-live for WA Works and the new WorkSourceWA website. These products will not go live in November 2025 as planned.

One of the biggest impacts to the timeline is the federal requirements for Participant Individual Record Layout (PIRL) reports. Ongoing delays have impacted PIRL development and other core features that must be functional to go live. A new timeline will ensure they meet state and federal requirements.

The WIT project team is working diligently to create a schedule that addresses current resourcing and other challenges. It is working with project sponsors and vendor leadership to secure a mutually agreed-upon timeline. This may take some time and ensuring alignment remains a priority to resolve. The project team looks forward to sharing an update with next steps.

The WIT Project Team is taking every measure to avoid repeating the challenges of past technology implementations. This project remains a top priority for Washington state and the project team is committed to building high-quality tools the system can rely on.
