Subject: PIRL Announcement - Submission/Certification of the DOL PY24Q2 PIRL Quarterly Report Now Concluded

Hello all,

The DI team has some good news to share, with an announcement in that the submission/certification process, for the *DOL PY24Q2 PIRL Quarterly Report* has now been concluded, and that the PIRL data has been sent to DOL. And that our WPC *Department of Labor (DOL) reports* dashboards have been refreshed to reflect the new *DOL **PY24Q2** PIRL Quarterly Report*.

A. Updated Dashboards

1) The data results, for the ***DOL PIRL PM dashboards***, are ***equal*** to the *official* **DOL Quarterly Performance Reports** (QPRs) data sets, for the **PY24Q2**, at *both* the *statewide* and *local* (LWDBs) levels, and at the *PIRL Federal Grants (Funding Sources)* level, and at the *DOL Performance Measures (PMs)* level, all of which are defined, developed, maintained and produced, by DOL.

2) The data results, for the ***DOL QRA dashboards***, are ***equal*** to the **DOL Quarterly Reporting Analysis** (QRAs) (aka, by DOL, as the PIRL Data Integrity (DI) reports) data sets, for the **PY24Q2**, at the *statewide* level, and at the *PIRL Federal Grants (Funding Sources)* level, and at the *Quarterly Reporting Analysis (QRAs)* level, all of which are defined, developed, maintained and produced, by DOL.

    - WA state does not currently receive *local* (LWDBs) level data, from DOL, for the QRAs, yet.

    - The DOL QRAs are *not* currently outlined in DOL *official* guidance (TEGLs, TENs), and are currently *only* in a "pilot" stage, by DOL, *for some of the states*. WA state is *not* one of the "pilot" states, and is only currently being monitored, by DOL, for the QRAs. But the DI team has been verbally told by DOL, in an official DOL *national* ZOOM call, that DOL is on the horizon for laying out all of the DOL QRAs, in official DOL guidance (TEGLs, TENs).

        - The DI team is not clear, once *official* DOL guidance is released by DOL, for the QRAs, on whether the QRAs will *only* be held accountable, by DOL, at the *statewide* level, or if the QRAs' accountability will *also* be held, by DOL, at the *local* (LWDB) level.

        - Our ***DOL QRA dashboards***, allow the data to be pulled at *both* the *statewide* and *local* (LWDB) levels.

3) The data results, for the ***MSFW Monitor Advocate Status Report Dashboard***, are ***equal*** to the *official* **DOL MSFW Monitor Advocate Report** data results, for **PY24Q2** at the *statewide* level, and at the *PIRL Federal Grants (Funding Sources)* level, and at the *MSFW Performance Measures* level, all of which are defined, developed, maintained and produced, by DOL.

    - WA state does not currently receive *local* (LWDBs) level data, from DOL, for the *official* **DOL MSFW Monitor Advocate Report**, yet, but our ***MSFW Monitor Advocate Status Report Dashboard***, allows the data to be pulled at *both* the *statewide* and *local* (LWDB) levels.

4) The data results, for the ***PIRL Exiters by Longevity*** dashboard is ***equal*** to the **DOL PIRL Quarterly Report** PIRL data results, for **PY24Q2**, of which is available at *both* the *statewide* and *local* (LWDB) levels.

5) The data results, for the ***PIRL Participants by Category (aka the PIRL "Slicer & Dicer")*** dashboard is ***equal*** to the **DOL PIRL Quarterly Report** PIRL data results, for **PY24Q2**, of which is available at *both* the *statewide* and *local* (LWDB) levels.

B.   Important Note

For all of our WPC ***Department of Labor (DOL) reports*** dashboards, there was a recent <u>LWDB PIRL script incident fix</u>, of which was applied starting PY23Q4 and going forward, of which also <u>directly</u> affected the LWDB/WDA slicer.

1)   <u>**LWDB PIRL Script Incident:**</u> If a job seeker has received services in multiple LWDBs, the offices were not always put into the correct LWDB/WDA, for the performance measures.

- The percentage of records that were affected by this PIRL script incident is very small.

- ***Note:*** See the ***<u>November 12, 2024</u>*** - ***Subject: WPC DOL Reports' Webpage Announcement - Enhancement of an LWDB Slicer*** general announcement, for more information, regarding how the LWDB slicer was implemented for the WPC ***Department of Labor (DOL) reports*** enhancement.
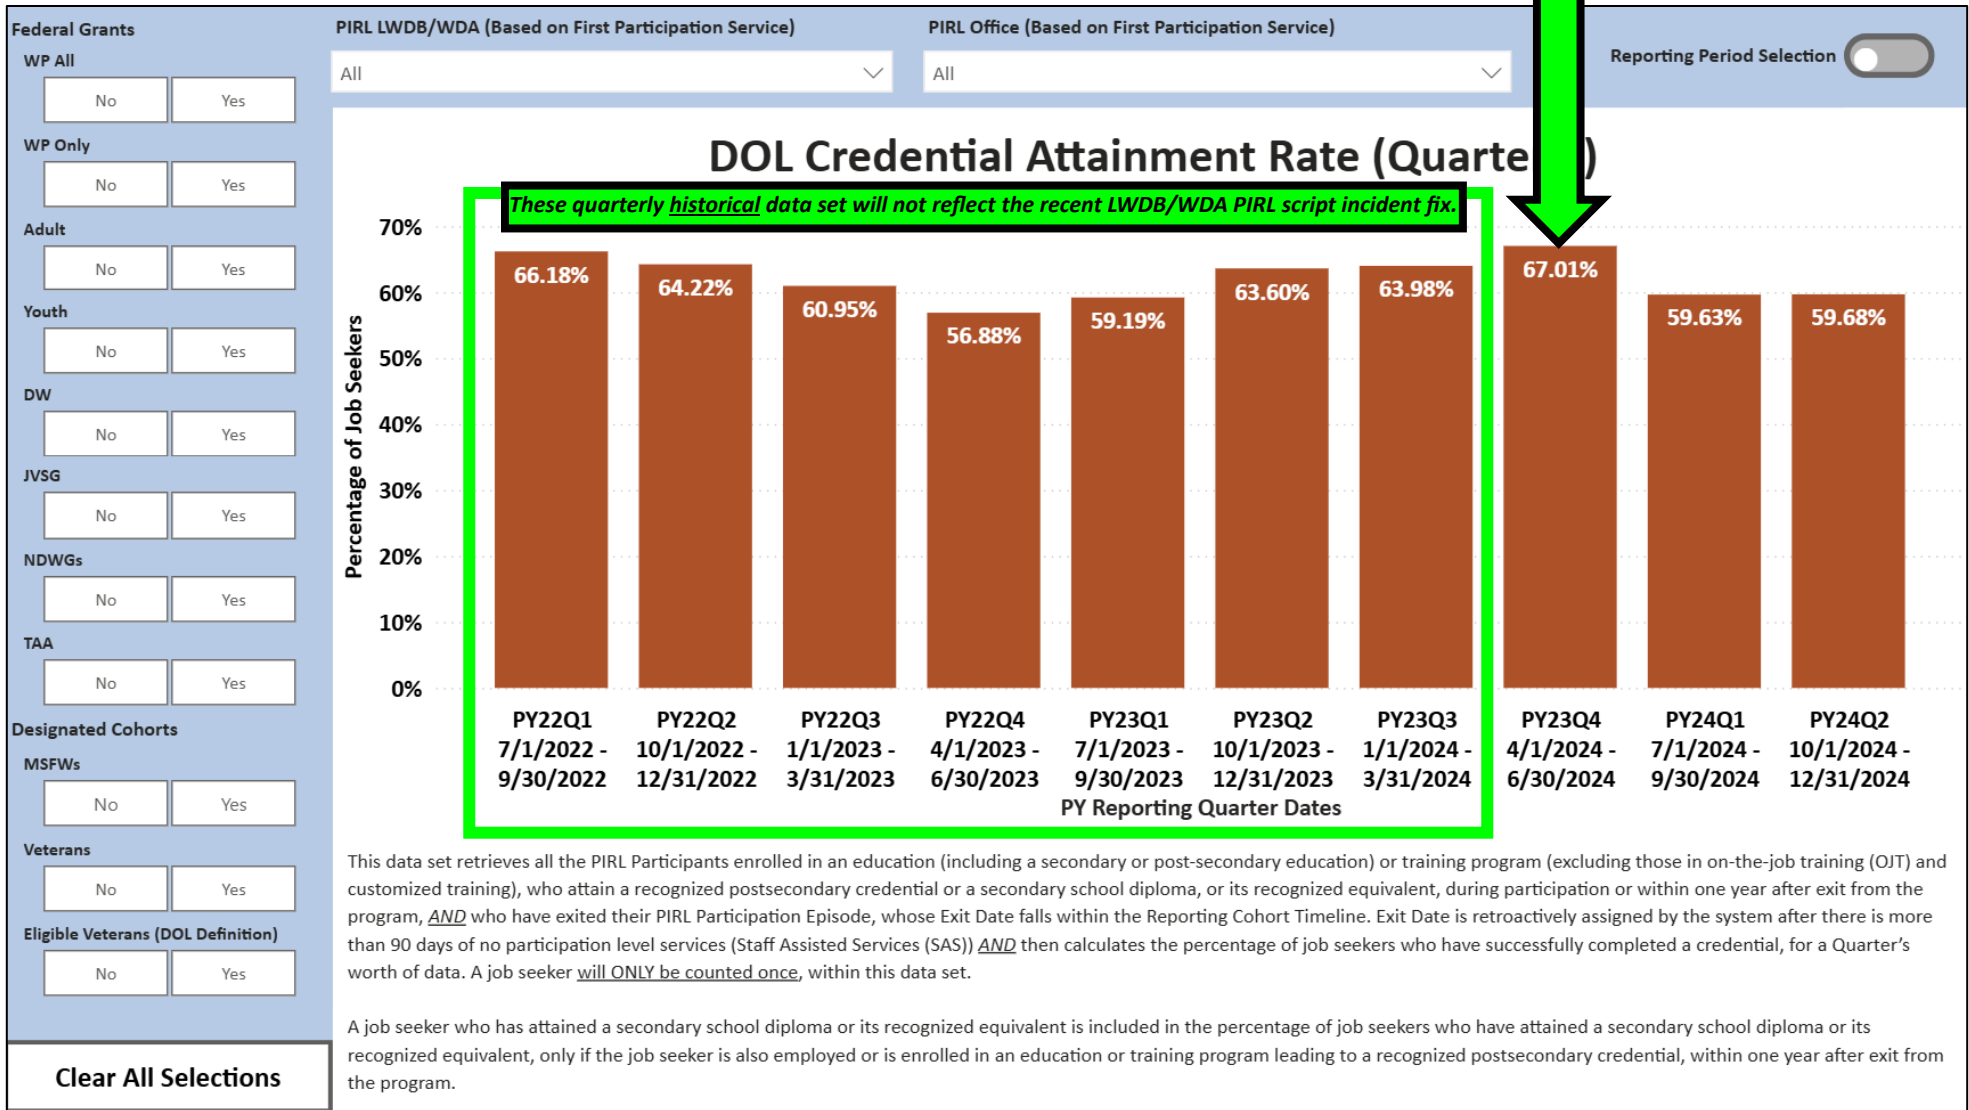

2)   Keep in mind, that the recent <u>LWDB PIRL script incident fix</u> ***did not and could not fix*** the quarterly ***historical*** data sets, provided on all of our WPC ***Department of Labor (DOL) reports*** dashboards.

- <u>*Only the quarters going forward*</u>, starting with **PY23Q4**, will reflect the recent <u>LWDB PIRL script incident fix</u>.

- Those quarterly ***historical*** data sets ***will still display*** data by LWDB, ***but*** keep in mind <u>the LWDB PIRL script incident fix</u> ***will not*** <u>have been applied to those quarterly</u> ***historical*** <u>data sets</u>.

    – This is because WA state cannot refresh/resubmit a previous PIRL. Once a PIRL has been certified and reported/sent to DOL, its data stays the same for life.

    – This means, you may see offices that you don't expect to see within the Office slicer, once you select an LWDB, and then go to select an Office. Those offices won't go away until all ***<u>historical data</u>***, portrayed on our WPC ***Department of Labor (DOL) reports*** dashboards, has elapsed (Currently, 8 quarters need to elapse ***(See example in Section B.3 below)***.

        ▪ FYI - The DI team has <u>*not found*</u> any significant data in any of those offices. There is just a count of one or two job seekers, here and there.

3) Example of how the Recent LWDB PIRL Script Incident Fix Affects the DOL PIRL PM Dashboards

This is an example of how the **LWDB PIRL Script Incident Fix** affects *historical data sets*.

> **Going forward LWDB/WDA PIRL script incident fix is applied**

DOL Credential Attainment Rate (Quarterly)

These quarterly underlined historical data set will not reflect the recent LWDB/WDA PIRL script incident fix.

PY Reporting Quarter	Rate
PY22Q1 7/1/2022 - 9/30/2022	66.18%
PY22Q2 10/1/2022 - 12/31/2022	64.22%
PY22Q3 1/1/2023 - 3/31/2023	60.95%
PY22Q4 4/1/2023 - 6/30/2023	56.88%
PY23Q1 7/1/2023 - 9/30/2023	59.19%
PY23Q2 10/1/2023 - 12/31/2023	63.60%
PY23Q3 1/1/2024 - 3/31/2024	63.98%
PY23Q4 4/1/2024 - 6/30/2024	67.01%
PY24Q1 7/1/2024 - 9/30/2024	59.63%
PY24Q2 10/1/2024 - 12/31/2024	59.68%

Y axis: Percentage of Job Seekers (0% – 70%). X axis: PY Reporting Quarter Dates

This data set retrieves all the PIRL Participants enrolled in an education (including a secondary or post-secondary education) or training program (excluding those in on-the-job training (OJT) and customized training), who attain a recognized postsecondary credential or a secondary school diploma, or its recognized equivalent, during participation or within one year after exit from the program, *AND* who have exited their PIRL Participation Episode, whose Exit Date falls within the Reporting Cohort Timeline. Exit Date is retroactively assigned by the system after there is more than 90 days of no participation level services (Staff Assisted Services (SAS)) *AND* then calculates the percentage of job seekers who have successfully completed a credential, for a Quarter's worth of data. A job seeker will ONLY be counted once, within this data set.

A job seeker who has attained a secondary school diploma or its recognized equivalent is included in the percentage of job seekers who have attained a secondary school diploma or its recognized equivalent, only if the job seeker is also employed or is enrolled in an education or training program leading to a recognized postsecondary credential, within one year after exit from the program.

C. Exception: DOL TAADI Dashboard

Exception: The DI team's ***DOL TAADI dashboard*** data sets **have not been** refreshed, and will have their next refresh, for the **DOL PY24Q2 PIRL Quarterly Report** PIRL data, soon.

1) Data Results

- Each quarter, after the quarterly PIRL submission/certification has been concluded and the data has been sent to DOL, the ***DOL TAADI dashboard*** takes a little longer to include the new data sets, as the DI team needs to wait for DOL to send their TAADI results, to WA state, for the most recent quarter. (DOL derives the TAADI's results/outcomes for WA state and then sends the data sets to us). Typically, it takes a month or so, after the submission/certification of a quarterly PIRL report, for the TAADI data sets to be available, within our ***DOL TAADI dashboard***.

D. DOL Quarterly Performance Reports (QPRs) for PY24Q2 are now available

With the submission/certification of the **DOL PY24Q2 PIRL Quarterly Report,** all of the *DOL Quarterly Performance Reports (QPRs)* (defined, developed, maintained and produced, by DOL), have been run and posted, and are available on the DI team's WPC ***Department of Labor (DOL) reports*** website here: ***Most recent QPR data, which represents the data of the most recent certified PIRL***.

DOL PIRL QPRs

For questions, concerns, or feedback please reach out to the Data Integrity (DI) team @ ESDDLLMIRDataIntegrityTeam@esd.wa.gov

Purpose

- Quarterly Performance documents illustrate the quarterly time periods for each cohort aggregated by the Quarterly Performance reports (QPRs), including those served (reportable individuals and participants), participating or exiting.

- These QPRs are developed by DOL, with the PIRL data ESD submits to DOL. All grantees must use the Program Performance report template (ETA-9173).

  - *ETA- 9173 - OMB control number: 1205-0521, expiration date: 03-31-2027* (This link goes to the most recent set of QPR specifications)

  - *Most recent QPR data, which represents the data of the most recent certified PIRL*

This document meets the Americans with Disabilities Act (ADA) of 1990 accessible requirements, as defined and applied in Microsoft Office 365 products, so that the ADA accessible tools can use/read this document.

Thank you for all of your time and efforts! The DI team knows you all work very hard, in serving the best service delivery you can to our job seekers! We are here to help, in any way we can! 😊

If you have any questions, concerns, or feedback please reach out to me, or reach out to our DI team's distribution list (*ESDDLLMIRDataIntegrityTeam@esd.wa.gov*).

Data Integrity (DI) team motto:

Planning, Organization, Standardization, Documentation, and the Maintenance of it all, leads to an efficient business process, of which leads to productivity, of which is timely and accurate! 😊
