Subject: WPC DOL Reports' Webpage Announcement – Enhanced WPC DOL Veterans' Priority of Service QRA Dashboard (New Data File/Export)

Hello all, below is some information, regarding the new enhancement.

A. New Enhancement

- The WPC [DOL Veterans' Priority of Service QRA Dashboard - Export List of All Veteran Participation Episodes Report](#) has new data columns, and is now available, and has been updated/refreshed.
 - Please see the list of data fields/columns, below, of which are now included in this export.
 - Note:** We have removed the Exit Date (if applicable) and replaced it with the PIRL Participation Episode End Date (if applicable) (column D), of which both pull the same date.
 - Please also see the information below, on when and how this export is updated/refreshed weekly.

Please see the below screenshot, on where to “physically” find the [Export List of All Veteran Participation Episodes Report](#) on the WPC [DOL Veterans' Priority of Service QRA Dashboard](#) webpage.

Below is the process for the update/refresh cycle, and it also identifies what is, and what is not, updated/refreshed, for the WPC [Export List of All Veteran Participation Episodes Report](#) (record level data - Case Management report):

(Updated weekly, by COB, on Tuesdays)

- Once a quarter, this export retrieves all Participation Episodes, **on the most recent certified PIRL**,

AND THEN

On a weekly basis, this export accesses the ETO database, in order to pull the “last” ETO service and the PIRL triggering “first” participation service information of the job seeker, per each Participation Episode, out of the ETO database.

This data set allows for data cleanup of services, in ETO, which may need to be closed, by investigating the job seekers on the list, of whom have a really old Last ETO Service Date. As long as a job seeker has any open durational services (No End Date), within their service delivery period, the job seeker will remain on the PIRL, **forever**, until all durational services, for all programs, are closed. This means, the entire service delivery period needs to be investigated. This data cleanup will help data migration of the data, into WaWorks.

Important Note: When we pull a weekly update/refresh, we are not updating PIRL data.

New Participation Episodes, and “how” **all** PIRL Participation Episodes are being counted, on the **most recent certified PIRL**, are not being added/updated/refreshed. We currently do not have the ability to support that. It will be different with WAWorks!

- **PIRL Business Process:** Once a quarter, the vendor pulls data for the PIRL and sends that PIRL data to us (the DI team). The DI team then works with the ITSD BI team and adds complex code and other data sources, and then the DI team submits and certifies the **most recent PIRL**. The DI team then connects our WPC dashboards to that **most recent certified PIRL**.
 - Because of how this PIRL business process works, **new** Participation Episodes, and “how” **all** PIRL Participation Episodes are currently being counted, on the **most recent certified PIRL**, are only being added/updated/refreshed, once a quarter.
 - The new data set, for the new quarter (PY24Q3), will come out no later than May 15. I will send out a general announcement, when the new data set is available.

Note: The PIRL Participation Episode End Date (if applicable) (column D) is also pulled out of ETO, so you will also see that column be updated/refreshed, weekly. Column D also affects column E, Length of PIRL Participation Episode (column D – column C), (In days), (if applicable), meaning that column will also be updated/refreshed weekly.

Below is the list of the columns that will now be included in this export going forward, starting with this update/refresh, 4/16/2025.

WA state is not in a “pilot” state, and we are only currently being monitored, by DOL, for the QRAs. But the DI team has been verbally told by DOL, in an official DOL national ZOOM call, that DOL is on the horizon for laying out all of the DOL QRAs, in official DOL guidance (TEGLs, TENS).
 - The DI team is not clear on whether the QRAs will only be held accountable, by DOL, at the statewide level, once DOL official guidance (TEGLs, TENS) is published.
