For this data set, we take the list of participation episodes of UI Eligible Claimants on the most recent PIRL, and then we access the ETO database, in order to pull the "last service" information of the job seeker, out of the ETO database.

[Export List of UI Eligible Claimant Participation Episodes Report](#) (Last Updated: 4/29/2025)

Page 1 of 8

Below is the process for the update/refresh cycle, and it also identifies what is, and what is not, updated/refreshed, for the WPC [Export List of UI Eligible Claimant Participation Episodes Report](#) (record level data - Case Management report):

(Updated weekly, by COB, on Tuesdays)

- Once a quarter, this export retrieves all UI Eligible Claimant Participation Episodes, **on the most recent certified PIRL**,

For a job seeker to be on this list, they must have received **at least** one Staff Assisted Service (SAS) (Having an SAS includes the job seeker on the PIRL) **and** be a UI Eligible Claimant.

AND THEN

On a weekly basis, this export accesses the ETO database, in order to pull the “**last**” **ETO service** and its applicable columns, and the PIRL triggering “**first**” **participation service** and its applicable columns, of the job seeker, per each UI Eligible Claimant Participation Episode, out of the ETO database.

This data set allows for data cleanup of services, in ETO, which may need to be closed, by investigating the job seekers on the list, of whom have a really old **Last ETO Service Date**. As long as a job seeker has **any** open durational services (No End Date), within their service delivery period, the job seeker will remain on the PIRL, **forever**, until all durational services, for all programs, are closed. This means, the entire service delivery period needs to be investigated, of which is under to the **ETO Case Number**, attached to the **Last ETO Service Date**. This data cleanup will help data migration of the data, into WaWorks.

Important Note: When we pull a weekly update/refresh, we are **not updating** PIRL data.

New UI Eligible Claimant Participation Episodes, and “how” **all** UI Eligible Claimant PIRL Participation Episodes are being counted, on the **most recent certified PIRL**, are not being added/updated/refreshed. We currently do not have the ability to support that. It will be different with WAWorks!

- **PIRL Business Process:** Once a quarter, the vendor pulls data for the PIRL and sends that PIRL data to us (the DI team). The DI team then works with the ITSD BI team and adds complex code and other data sources, and then the DI team submits and certifies the **most recent PIRL**. The DI team then connects our WPC dashboards to that **most recent certified PIRL**.
 - Because of how this PIRL business process works, **new** UI Eligible Claimant Participation Episodes, and “how” **all** PIRL UI Eligible Claimant Participation Episodes are currently being counted, on the **most recent certified PIRL**, are only being added/updated/refreshed, once a quarter.
 - The new data set, for the new quarter (PY24Q3), will come out no later than May 15. I will send out a general announcement, when the new data set is available.

Note: The **PIRL Participation Episode End Date (if applicable)** (column D) is also pulled out of ETO, so you will also see that column be updated/refreshed, weekly. Column D also affects column E, **Length of PIRL Participation Episode (column D – column C), (In days), (if applicable)**, meaning that column will also be updated/refreshed weekly.

Below is the list of the columns that will now be included in this export going forward, starting with this update/refresh, 4/29/2025.

ETO Case Number,

- Unique identifier, of which is identified in ETO.

PIRL Participant ID,

- Unique identifier, of which is identified, on the PIRL.
- When there is a singular/unique/distinct ETO Case Number, with more than one differing PIRL Participant ID attached to it, it can be deciphered that a job seeker had more than one Participation Episode.

PIRL Participation Episode Start Date,***PIRL Participation Episode End Date (if applicable),***

- This date is the same as the “PIRL Exit Date”.

Length of PIRL Participation Episode (column D – column C), (In days), (if applicable)

- If this column displays/reads “Same Day”, it means that column D (PIRL Participation Episode End Date (if applicable)) equals column C (PIRL Participation Episode Start Date).

First PIRL Participation LWDB/WDA,

- This “**First**” **PIRL Participation LWDB/WDA** identifier is the LWDB/WDA of which is responsible/accountable, on/for the PIRL, for the identified **ETO Case Number /PIRL Participant ID**.

First PIRL Participation Office,***First PIRL Participation Service Type,******First PIRL Participation Service Name,******First PIRL Participation Service Date,******First PIRL Participation Service Staff Name,******Last ETO LWDB/WDA,***

- This “**Last**” **ETO LWDB/WDA** identifier is the LWDB/WDA of which last provided service, in ETO, for the identified **ETO Case Number /PIRL Participant ID**.

Last ETO Office,***Last ETO Service Type,******Last ETO Service Name,******Last ETO Service Date,******Last ETO Service Staff Name,***

But the DI team has been verbally told by DOL, in an official DOL national ZOOM call, that DOL is on the horizon for laying out all of the DOL QRAs, in official DOL guidance (TEGLs, TENS).
 - The DI team is not clear on whether the QRAs will only be held accountable, by DOL, at the statewide level, once DOL official guidance (TEGLs, TENS) is published.
