

COMING SOON

2025

Windows  
11

Employment  
Security  
Department  
WASHINGTON STATE

## What?

Upgrading all laptops and computers for staff, contractors and public (*who use public-use devices in our WorkSource offices*) from Windows 10 to Windows 11

## Why?

- Windows 10 reaches end-of-life in October 2025
- Avoid potential for security vulnerabilities with current operating system
- Aligns with ESD's value of organizational excellence

## When?

Rotating schedule of Windows 11 upgrades starting in mid-January and running through the end of June 2025

## Who?

All ESD staff, contractors and public (*who use devices in our WorkSource offices*) will experience this upgrade

## How?

- Conducting the upgrade by division vs. the entire organization all at once (*avoiding potential 'blue screens of death' scenarios*)
- List of staff to receive upgrades will be sent to division leaders, managers, supervisors as their cycle approaches
- Communications, divisional road shows, and informational sessions coming in January/February 2025

**Staff Benefits: Updated aesthetic interface with cool customization options!**
