

WORKSOURCE INTEGRATED TECHNOLOGY (WIT) INFORMATION & TECHNOLOGY ADVISORY COMMITTEE

February 19, 2025

A proud partner of the American  Job Center network

Agenda:

- Welcome / Agenda review
- Data Migration Advisory Group Recommendations
- System Training Approach Conversation
- ETO Access Requestor Updates
- Core LDP Report Out*
- New WSWA LDP Report*
- Data Migration Advisory Team Report*
- Recent Steering Committee decisions*
- WIT Replacement Project update*

*Standing Item

Meeting objectives:

2

- Shared understanding on the WIT Replacement Project deliverables
- Full engagement from participants on decisions and advice requested

A proud partner of the AmericanJobCenter network

Data Migration Advisory Group Recommendations

Sam Havens & Aaron Parrott

A proud partner of the AmericanJobCenter network

Data Migration Advisory Sub-Group Purpose

- Review business assumptions and validations of code ready data fields
- Ensure alignment with business process and data integrity requirements
- Agree on business recommendations before the data migration team constructs migration logic and conducts simulations
- Address any questions from the Data Migration Team that are cycled back through the business process

A proud partner of the AmericanJobCenter network

Data Migration Team Composition

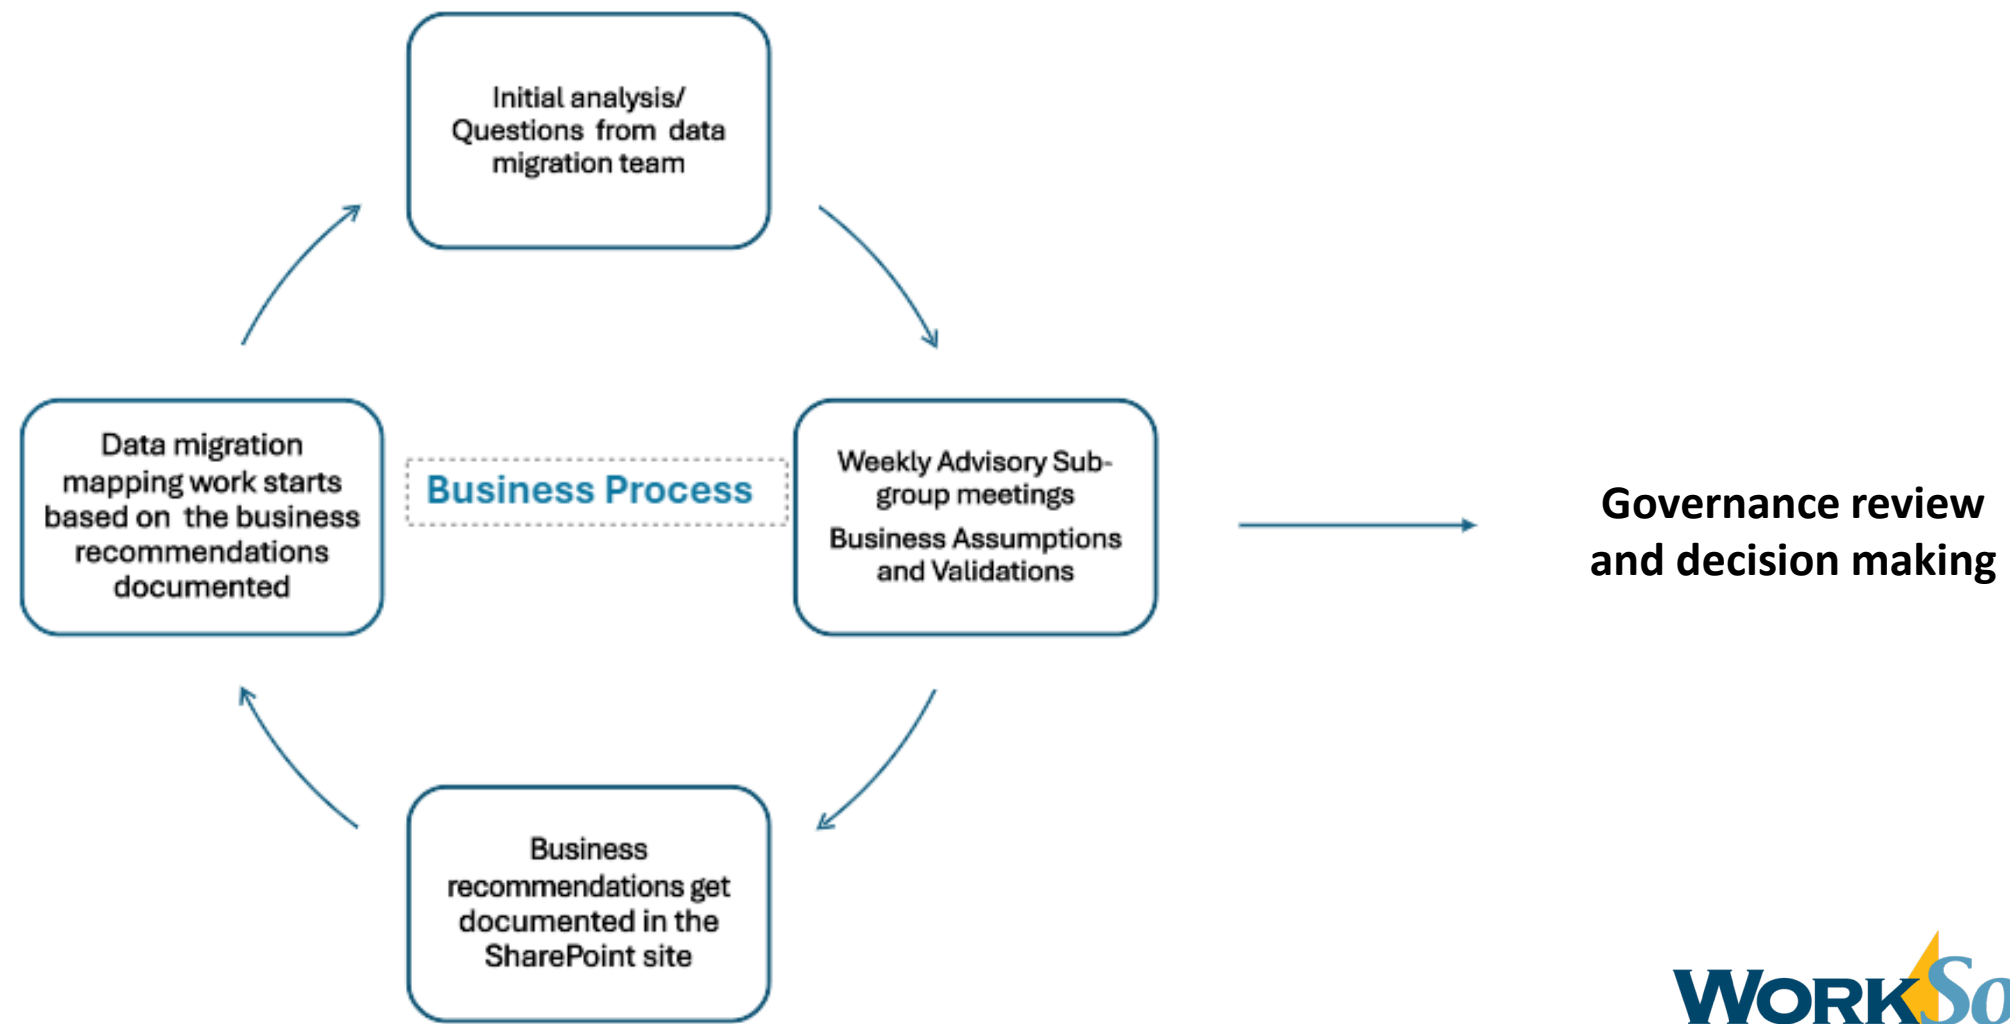

5

WIT Project Manager	Linda Kleingartner
Data Migration Project Manager	Venkatappaiah Ammisetty
Scrum Lead	Rebecca McGinnis
Senior Data Manager	Douglas McCabe
Senior Data App Developer	Ashok Vallapaneni
Business Analyst	Sri Vidhya Sivasankaran
Business Intelligence Specialist	Kevin Persell
Data Integrity	Carri L. Callaghan, Haley Hildebrandt , Ryan Scott
Data Engineer	Chuong Huynh
Launchpad Data Engineer	James Stakelum

A proud partner of the AmericanJobCenter network

Data Migration Process

23 Data Migration Advisory Group's recommendations:

7

1. Job Seeker Universe - 03/20/2023 (updated on 01/29/2024)
2. Nullable values for Demographic data - 08/21/2023
3. Entities Universe - 09/21/2023
4. Date of Birth data mismatches -09/28/2023
(updated on 02/28/2024)
5. Disability data mismatches - 11/11/2023
6. Phone number data mismatches - 12/21/2023
7. Email address data mismatches - 12/21/2023
8. Data cleanup for Open durational services
(Work in Progress)
9. Data cleanup for WIOA eligibility touchpoints in Draft status
(Work in Progress)
10. Data cleanup for TAA related touchpoints in Draft status
(Work in Progress)
11. Local Program review
started on 01/26/2024 - completed on 03/04/2024
12. Invalid or Null SSN data in ETO - 02/01/2024
13. Self Reg: Logic for mapping Military connection field in WIT system - 02/22/2024
14. Self Reg: Residential information Mapping decisions - 02/29/2024
15. Self-Intake Veteran Information Mapping decisions - 03/07/2024
16. Self-Intake Employment Status Mapping decisions - 03/28/2024
17. Self-Intake: MSFW and Education Info Mapping decisions - 04/04/2024
18. Self-Intake: Income and Public Assistance Mapping decisions - 04/18/2024
19. Self-Intake: Youth Details Mapping decisions - 05/02/2024
20. Self-Intake: Veteran info and HVRP data - 06/27/2024
21. Revised participation script and Veteran's HVRP decisions - 07/25/2024
22. Self-Reg: Preferred language decision - 08/29/2024; Revised Logic 1/08/2025
23. Deskside Intake fields - 10/16/2024

Data Migration Decision Recommendations

- General scope of work (large scale considerations to very specific issues)
- Why is this important to you
- A glimpse at the complexity of this work
- The full recommendations, with complete business processes, are included in the advance documentation

A proud partner of the AmericanJobCenter network

Universes (1-3): Defining the Data to be Migrated 9

Item	Definition or process in plain language	Why is this important
1. Job Seeker Universe	Identifies the job seekers whose data will be migrated from ETO to WA Works	<ul style="list-style-type: none">• Defines the complete dataset of job seekers to migrate
2. Nullable Values for Demographic Data	Determines what happens when migrating job seeker demographic data that contains a NULL value	<ul style="list-style-type: none">• Ensures accurate migration of job seeker demographic data limiting the NULL values to when data can't be found
3. Entities Universe	Identifies entities whose data will be migrated from ETO to WA Works	<ul style="list-style-type: none">• Defines the complete dataset of entities (employers/businesses) to migrate

A proud partner of the AmericanJobCenter network

Data Mismatches (4-7): Reconciling Job Seeker Demographic Data 10

<i>Item</i>	<i>Definition or process in plain language</i>	<i>Why is this important</i>
4. Date of Birth (DOB) Data Mismatches	Occurs when there is a mismatch in the DOB data gathered from View/Edit screen and from Demographic Details touchpoint in ETO	<ul style="list-style-type: none">• Critical for Compliance & Eligibility: Federally reportable data; used for identity verification; can impact eligibility and documentation requirements
5. Disability Data Mismatches	Occurs when disability data gathered from Disabilities Details and Demographic Details touchpoints don't match (may involve NULL data in one or both touchpoints)	<ul style="list-style-type: none">• Critical for Compliance & Accessibility: Federally reportable data; can impact eligibility and documentation requirements; determines qualifications for services and accommodations for services
6. Phone Number (PH#) Data Mismatches	Occurs when PH# data gathered from View/Edit screen and from Demographic Details touchpoint don't match	<ul style="list-style-type: none">• Essential for communication: Allows case managers to contact customers
7. Email Address Data Mismatches	Occurs when email address data gathered from View/Edit screen and from Demographic Details touchpoint don't match	<ul style="list-style-type: none">• Essential for communication: Allows case managers to contact customers

Data cleanups (8-11): Preventing the Migration of Incomplete or Invalid Data

<i>Item</i>	<i>Definition or process in plain language</i>	<i>Why is this important</i>
8. Data Cleanup for WIOA Eligibility Touchpoint in Draft Status	WIOA eligibility touchpoints have been identified in the ETO system that are in DRAFT status	<ul style="list-style-type: none"> • Prevents incomplete or erroneous data from being migrated unnecessarily
9. Data Cleanup for Open Durational Services	Durational service touchpoints have been identified in the ETO system with no end date or if applicable, missing an ONet code	
10. Data Cleanup for TAA related touchpoints in Draft Status	TAA related touchpoints have been identified in the ETO system that are in DRAFT status	
11. Local Program Review	Identify the Local Programs in ETO that need to be migrated to the WIT replacement system	

Mapping and Edge Cases (12-15): Ensuring Clean Data Migration to WA Works 12

Item	Definition or process in plain language	Why is this important
12. Invalid or Null SSN Data in ETO	Occurs when job seeker record has invalid or NULL SSN	<ul style="list-style-type: none"> Identifies the job seekers that have invalid or NULL SSN value that need to be alerted to review and correct their SSN
Data Mapping: Self-Registration		
13. Mapping Military Connection Field in WIT	Logic for mapping Military Connection responses in new system	<ul style="list-style-type: none"> Format of information in current system does not exactly match format in new system to answer reporting requirements
14. Residential Information Mapping	Logic for mapping residential information (home and mailing address responses) to new system	<ul style="list-style-type: none"> Logic maps validating various touchpoints and data fields in ETO have been created to ensure a clean data migration to WA Works
15. Preferred Language	Logic to migrate a job seeker's responses to "Primary Language" and "Translation Assistance Language" to new system question "What is your preferred language?"	

Mapping and Edge Cases (16-17): Ensuring Clean Data Migration to WA Works 13

Data Mapping: Self-Intake		
Item	Definition or process in plain language	Why is this important
16. Veteran Information Mapping	Migrate data for the Military Connection WIT questions, <i>“You indicated you are active military. Are you retiring within the next 24 months or are you separating from service within the next 12 months?”</i> , and <i>“Have you attended a Transition Assistance Program (TAP) Workshop within the last 3 years?”</i>	<ul style="list-style-type: none"> • Format of information in current system does not exactly match format in new system to answer reporting requirements • Logic maps validating various touchpoints and data fields in ETO have been created to ensure a clean data migration to WA Works
17. Employment Status Mapping	Map the employment status data from ETO to the new WIT System self-intake questions: <ul style="list-style-type: none"> • Q1: <i>What is your current employment status?</i> • Q2: <i>We see that you are employed, have you received a notice of termination or any other notice that your place of employment may close?</i> 	

Mapping and Edge Cases (18-20): Ensuring Clean Data Migration to WA Works 14

Data Mapping: Self-Intake		
<i>Item</i>	<i>Definition or process in plain language</i>	<i>Why is this important</i>
18. MSFW and Education Info Mapping	Map the MSFW information and Education information to the new system from various intake questions in ETO	<ul style="list-style-type: none"> • Format of information in current system does not exactly match format in new system to answer reporting requirements • Logic maps validating various touchpoints and data fields in ETO have been created to ensure a clean data migration to WA Works
19. Income & Public Assistance Mapping	Map income and public assistance information to the WIT replacement system from various touchpoints in ETO	
20. Youth Details mapping	Map Youth-specific information to the new system from various touchpoints in ETO	

Mapping and Edge Cases (21-23): Ensuring Clean Data Migration to WA Works 15

Data Mapping: Self-Intake		
<i>Item</i>	<i>Definition or process in plain language</i>	<i>Why is this important</i>
21. Veteran Info and HVRP Data	Map Veteran information and Homeless Veterans' Reintegration Program (HVRP) data to the new system from various touchpoints in ETO	<ul style="list-style-type: none"> • Ensures Veterans and HVRP data is collected from appropriate ETO touchpoints and migrated to required WA Works fields
22. Revised Participation Script and Veteran's HVRP	Determine the logic revisions that need to be made to the ETO participation script and Veteran HVRP decisions for the data migration process	<ul style="list-style-type: none"> • Ensures the correct Veterans and HVRP data is migrated (similar to universes)
Data Mapping: Deskside intake Field Recommendations		
23. Data Migration of BSD/IEP or 504 Participant	Determine the data migration process that needs to be used for the ' <i>Basic Skills Deficient</i> ' and ' <i>IEP or 504 Participant</i> ' field questions in the WIT replacement system	<ul style="list-style-type: none"> • Ensures that federally reportable information that ETO did not collect correctly in all cases is migrated to correct location in WA Works to be reportable

A proud partner of the AmericanJobCenter network

Data Mapping Process Example: Preferred Language 16

- The table shows the ETO values used for data mapping a response to WA Works question 'What is your preferred language?'
- For SOMALI, KAREN, and UTE languages data available in ETO:
 - SOMALI will be added as a picklist value for WA Works question
 - KAREN and UTE will be populated as free text for Preferred Language (Other) field

<u>ETO Value</u> Primary Language & Translation Assistance Language	<u>WIT Replacement Value</u> Preferred Language
Both languages are same	Bring the value
One of the values is NULL	Bring the available value
One of the values is English, and the other is non-English	Bring the non-English value
Primary Language is 'Chinese' and Translation Assistance Language is either Cantonese or Mandarin	Bring the Translation Assistance Language (either Cantonese or Mandarin)
Different spelling across two fields	Fix mapping for Cambodian, Vietnam, Ukrainian (different spellings across two fields to match WA Works value)
Both are non-English without obvious mapping – two different languages	NULL

*What is your preferred language?

Other

* Preferred language (Other)

Karen or Ute

Data Migration: Progress & Acknowledgments

- Data Migration is an ongoing and evolving process, requiring continuous monitoring and refinement
- Post-migration manual reports will be utilized to validate data accuracy and address any discrepancies
- Discussion with the Data Migration Advisory Group highlight the significance of this work and its impact
- A special thank you to the Data Migration Team for their dedication and efforts in ensuring a smooth transition from ETO to WA Works

A proud partner of the AmericanJobCenter network

Recommendation for Approval

Does Advisory committee support this information going forward to Steering Committee for formal decision?

Please respond in the chat:

 Yes, I concur

 Yes, I concur but have concerns or reservations

 No, I do not concur

A proud partner of the AmericanJobCenter network

System Training Approach Conversation

McKenzie Hogan

A proud partner of the AmericanJobCenter network

Targeted Approach

Traditional Approaches

- By area
- One size fits all

Alternative is a Targeted Approach

- Meet learners where they are
- Allow greater targeting of modality
- Target support where it is needed

WORK  **Source**

A proud partner of the American **Job**Center network

Targeted Approach

Self-paced Learners Weeks 1 & 2

First to train and able to help super users to support others* who train after

Comfortable adapting to new materials and concepts

Accelerated pace of instructor led courses

Allows for completion of many courses on own

Blended Learners Weeks 2-6

Next round to train and local support from super-users and early adopters*

Largest group that learn with moderate guidance

Moderately paced Instructor led courses

Mix of self-led and Interpersonal learning styles

Interpersonal Learners Weeks 6-9

Last group to train and local support from super-users and early adopters*

Benefit most from having a designated resource

Normal paced instructor led training

Support from trainers and super users for both Instructor Led and online courses

*As capacity allows.

Project's Risks | Risk Report

On 2/12/25, the Monthly Risk Report (as of 2/12/25) was sent to the Advisory Committee with all logged Risks & related mitigation strategy. This report is reviewed with Advisory Committee every month.

1 Open Issue #195296 | Vendor Product team is unable to keep the Backlog "full" of development requirements. Action Plan Owner: Perla/ Launchpad

New Issue #236977- *resolved immediately!* - ~~WIT team is not consistently following established security process(es) to ensure CAT3+ data is protected~~

Category	Count	Notes
High Risks (20+)	0	No changes
Med-High	2	Reduced 2 risks #101179 (ESD project resources) to Low and #181766 (Federal changes) and elevated risk rating to Medium; Finalized risk review for 222071 (LP Product VP) which elevated risk rating to 15
Medium	37	Closed 2 risks #231610 (Trifecta tools) and #213084 (BA extended leave); Added 4 risks #234381 (LP BA lead), #234395 (LP Dev Team Lead), #235354 (Training dependency on Development) and #234491 (Final go live sprint)
Low	8	Closed 8 Risks #222394 (security vendor), #187663 (Monster data model), #195273 (2 scrum team transition), #230131 (federal reporting scope), risks #230755 (WA budget freeze), #195274 (QA testing estimates), #222172 (One WA impacts) and #219082 (LMS costs)

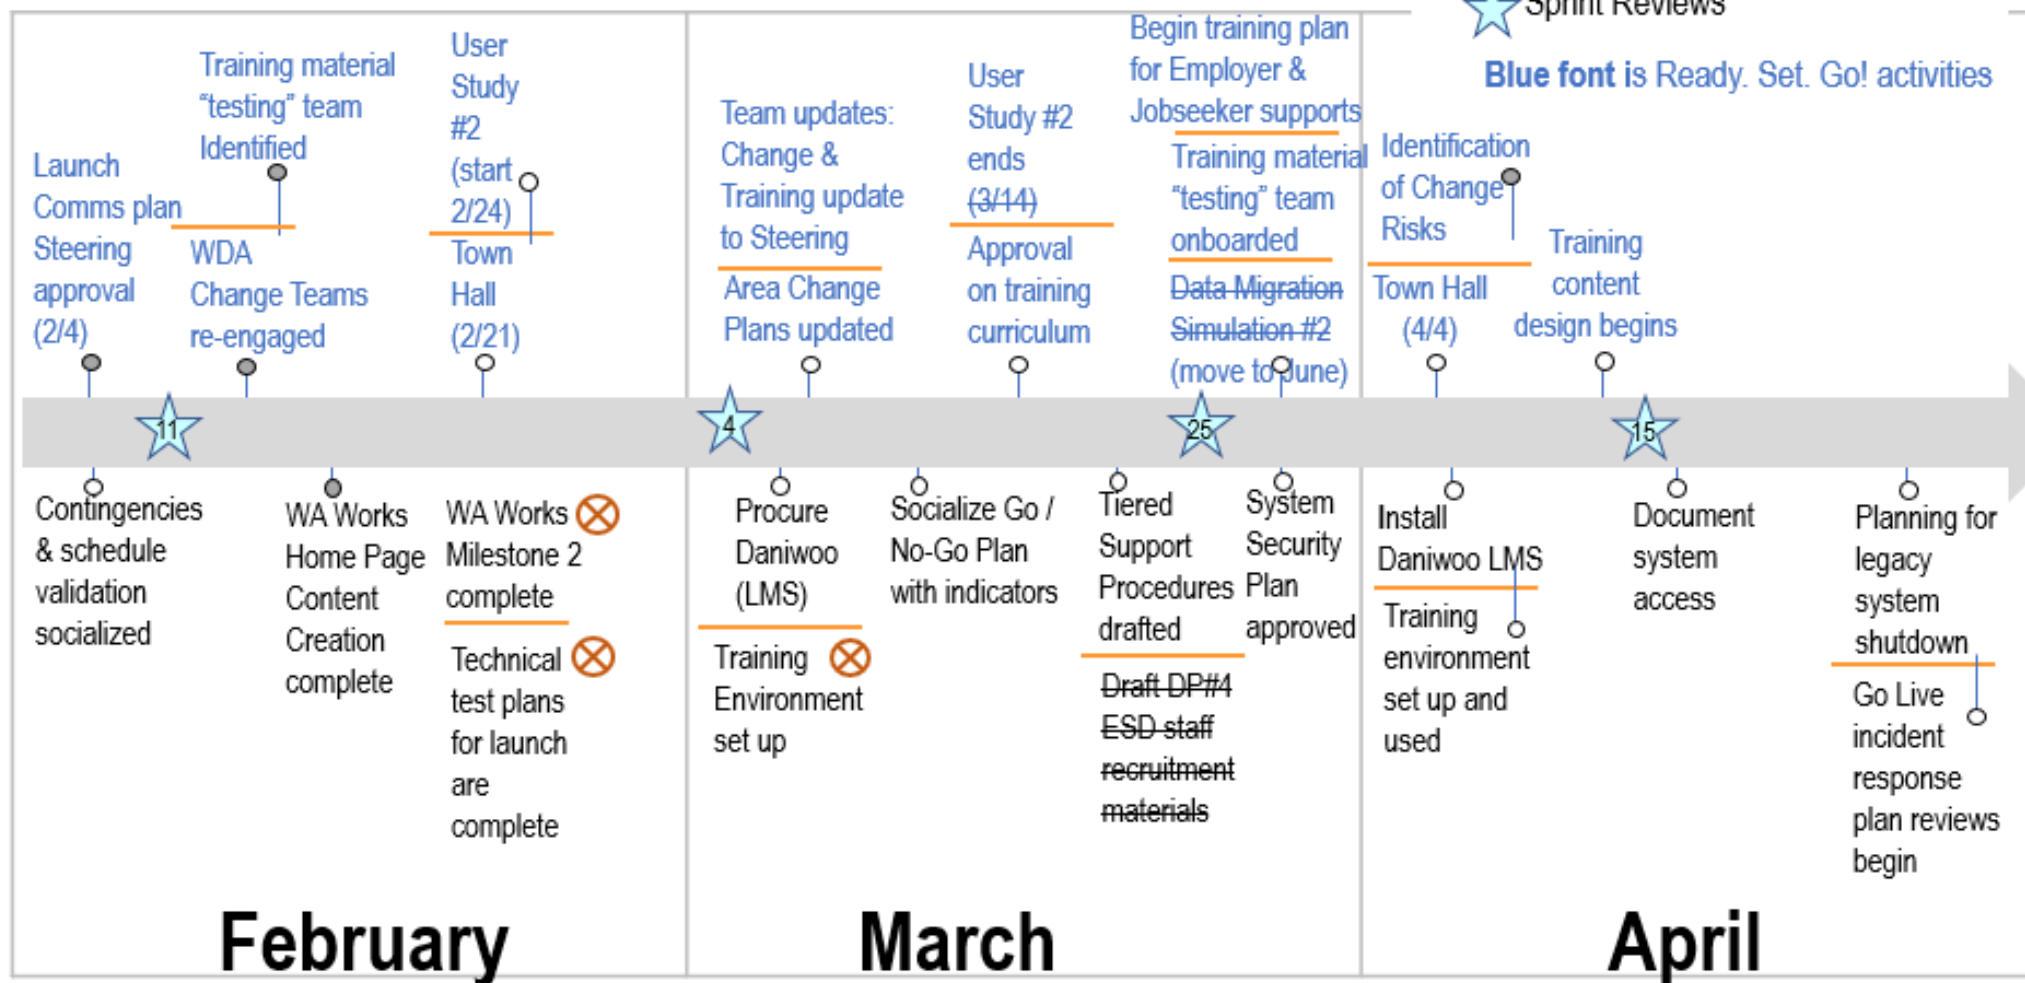

NOTE: Risks are logged if they are expected to impact one or more of the following element **around project implementation:** Schedule, Scope, Cost, Quality, or Stakeholder

2025 Project Quarterly Details

Last update 2/19/2025

- Tasks started / In progress
- Completed Tasks
- ⊗ Task at risk from original estimate
- ★ Sprint Reviews
